Bethany O'Neil Interior Design offers an all-encompassing approach to luxury residential design. Her boutique-style philosophy allows her to give undivided attention to discerning clientele. Her design style is a coastal persuasion that incorporates the view beyond the interior. People come to Naples for the beautiful natural surroundings, weather and easy lifestyle. Interpreting client needs and collaborating with them to achieve the vision builds enduring relationships. Her ability to implement and execute the client's vision is exceptional.

Bethany's design sense is easily recognizable. Her use of quiet colors is evident, as is her ability to find strength in textures, allowing for open airy spaces that invite the vistas beyond the inside. She takes pride in mixing a little bling and formality with everyday comfort and functionality. Her interior spaces are detail-rich and have a sense of chicness about them.

She has said that "nothing goes better with blue jeans than diamonds," and she designs the same way.

Bethany's sense of function, comfort and glamour all help define her clients' lifestyles and dreams by reflecting their own personalities.

With 25 years of experience, design awards and published work, she takes strength in her experience and full knowledge in the world of remodeling, construction and providing complete furnishing services.
